## 2022 on property sale

Tuesday 20th September

Consistent in this year's Collinsville catalogue is the increased focus on width of body – spring of rib that emulates into extra doing ability while maintaining their impeccable body correctness. Conformation is still a priority.

OUTSTANDING BREED PROSPECT

In February this sheep was the one that really stood out ABSOLUTE breed impact sire of the future. As a lamb he was heavier, wider-bodied and showed great maturity – a class stud wool sheep. He won the Northern SA Merino Expo March shorn Hogget ram competition. A Sire with body correctness – perfect pasterns, mouth and meaty back end. An easy-doing plainer-bodied ram with tremendous growth. A good wool that could go anywhere. OPPORTUNITY – If the modern poll merino is to be dual-purpose then this sheep is an asset to the breed. Early growth, great conformation and sweet 'breed on' white wool.

Mid-August: BW 130kg. SL 85mm (Part of the winning pen of 3 Ram Hoggets at Jamestown this year)

Footnote: Also 2022 Adelaide Royal Show Grand Champion March shorn Poll Merino.

A younger June drop that is another Industry Impacting sire weighing 125kgs mid-August. A sire with massive length of body Squareness and fantastic presences He shows a clean poll and stands on good feet. INTERESTING wool sheep! A free-growing waxy rich 'ram-breeding' fibre. A finer micron wool with a lot of clout. Excellent wool-growing skin sheep blending density and ample staple length. IMPOSING!
